**1990s**

\$4,000,000 is invested in new equipment including an IGM Robotic Welder and Whitney Plasma Punch Fabricating Center

**2006**

Plant 2 is purchased on an adjacent property to add 44,000 square feet of additional production space on our current campus

**2011**

A new 76,000 square foot expansion is completed consisting of two new high bays and overhead crane lifting capacity to 200 Tons

## A Growing Tradition

To say we grew from humble beginnings might be an understatement. Back in 1973 Weldall consisted of Dave Bahl, Sr., one welder and a rented room measuring about 250 square feet. Fast forward to today and Weldall's property spans 20 acres housing a 220,000 square foot state-of-the-art facility. Along the way, we also consistently expanded our employee count to meet continuously growing requirements.

Above are some of the milestones we have passed along the way to becoming one of the United States' leading full-service metal fabrication and metal processing manufacturers.

Inspired by past accomplishments, we are impassioned by future prospects. We will continue to invest in people and equipment, grow intellectually and physically and provide our clients unmatched quality and unparalleled value.

# LOCATION

Centrally Located in the United States  
Predominately Positioned in the Industry

20 Minutes West of Milwaukee  
90 Minutes North of Chicago

**WELDALL**

2001 South Prairie Avenue, Waukesha, WI 53189  
P: 262.544.1155 • 800.875.1152 • F: 262.544.2067
